The Republic of Hawan is thus estabhabed and recognized. It holds its place among the nations of the earth, and it will stand independent and secure during the Administration | It will stand until the United States has a Government wise enough and patriotic enough to accer the Hawaiian profict to become a part of the American Republic. The present government of Hawaii is recognized as the rightful authority of the nation No one would dispute as power to enter into negotiation for the tession of the islands But it is practically the same government which made the proposa of annexation. It has vindleated its title and lits right by its unresisted maintenauce of authority, and it is made clear that the Administration has upon its shoulder the sin of rejecting an offer of annexation which came from the legitlemate and responsible authority. It leaves the glory and advantage of such un acquisition to its successor.

The Tariff Situation.

[Wash Cor Boston ournal, Aug 12] The Administration in dire straits has hit upon a new scheme to thwart the men in the Senate who are striving against it. There was a gathering at the White House last uight. Mr. Wilson was there, Mr. Breekinridge was there, Sepretary Carlisla and two others. Wil-

that, unless comething herold were cone, the cause of the Administration would be lost. There was a long and anxious conference, and at its close Mr. Wilson had received his instructions that the from all opposition to the Senate amendments or get the bill back into the Hous by fulr means or foul

It was planned that a crueus of the House Democrats should be called, that this cancus should determine that the conferees on the part of the House yield to the Senate and report an greement at once, that this agreement should be acceded to, and that when th oill reached the White House the President should keep it there 10 days, thus allowing it to become a law without;his signature, at the same time giving an opportunity for the presentation of popgun bills in the House providing for free coal tree non and other free raw mate-

This morning the call for a caucus was circulated by young Mr. (1189) the son of the Speaker, and with this badge of authenticity it was signed by every Democrat in the House to whom it was pre sented. The caucus will be held at 10 Monday and until its result be known speculation as to the fate of tailft legis lation is useless. The knowledge that a cances was to be called brought the Senate to a sudden tandstill this afternoor in the discussion of Hills resolution Smith and Brace were informed of the Wilimgores of the House conferres to recede. and the dangers which threatened in th senate were met by a proposition for delay which will keep the Senute from doing anything to endanger the bill before the House caucus will have an opportunity to consider it

The news from the Conference Committer reached the Senate carly and the n formation caused a general collapse of the belief that toroll legislation loomed. It was accepted as indicating that the Senate bill, exactly as it passes the Senate, would in a few days be or the statute books. When the collapse of the flower was trinforced by the success of the motion to go into exicutive ses sion with which the Admini tration benators sought to side track Hiles resoluu t ee ers t nol nav (f. ton those who still believed that it was possible to defeat the bill could be count-

Administration | Senators Attempt to Sidetrack Hill's Resolution

Dramatic Scenes in Senate Witnessed by Large Crowd.

WASHINGTON, Aug 11 A rap of the Vice-President's gave stopped the buzz of the galleries, which were filled to-day hearly every Senator was in his seat A Senate for the first half hour, much to the disappointment of the gillents.

At 12 30 octock Mr. Hill made an at taught or all up has resolution. Ri-ing from his stat in the rear row on the Democratic side, he shill 'Mr. President Lights to send the send of the lights to send the send of the lights to send the light the light to send the light Democratic side, he same as bot last dont, I desire to call up—" but last here the Vice President broke in by layhere the Vice Fresident broke in by lay-ing theore the Senate the resolution of Mr (handler providing for an investi-gation by the Senate committee on priv-leges and elections of the charges of corruption made in connection with the Circion in Alabaman of a 1/g/slature which whould have the election of a United States Senator

which whould have the election of a United States Senator. This caused a suspension that there was a scheme to sidetrack Mr. Hill's resolution, but Mr. Chariller cleared the way by allowing his matter to go over until Monday, when benefor Morgan, who will be the Dephoent or indicate for reche comby the Alabama Legislature, will be present. There was a nisposition on the Democratic side to dobate the resolution, even after Mr. Chandley had agreed to let ugo over until Monday, but Mr. Clandler who was more anxious to have the full matter discusse prevented this by withdrawing his metion. Then he defected it immediately and under the rule it went over until Monday.

C., Aug. 11. House conferees on the tariff bill were in session the better part of the morning, and until half past three this afternoon. One of the propositions advanced to-day was to continue the bounty on segar at one tent a pound for two or even three years, ugred to i per cent duty on Iron ore and leaved coal free, if by making such an agreement the bil could be passed. When they spoke later in the day with some of the House Democrats regarding the matter, there was violent opposition. the matter, there was violent opposition 'No bounty," said these gentlemen We will accept anything but a bounty We might perhaps, agree to a one cent bounty for the remainder of the year, hasemuch as the sugar men have made contracts under the old law for the next 12 months, but we draw the line

Tariff Bill Hanging in Mid Air WASHINGTON, Aug 12 The week just ended has left the turif bill hunging in mid air. What its condition will be by the time the present week is ended the most sanguine politician will not preduct there is a belief that the time for action has arrived aid that the long and theseoms arrungle is about to close. The action has arrived and that the long and thresome struggle is about to cease. The situation has become clear to a cortain extent. There is no longer a question of the choice between the Sanate bill and the Wilson bill, but between the Senate bill and the Mckluley law.

Pullman Strikers to be Evioted—
Many Nearly Starved-Striking
Lesson in Strikes

CHICALO, Aug 12 Mr Pullman made up his mind yesterday to evict the striking tenants from the houses early this week. The legal papers which must be served on the strikers were understood yesterday to be in course of preparation in Attorbey Runnells offlit under positive orders of Mr Pullman Mr. Run wells refused to be interviewed.

Vice Hresident Wickes confirmed the report that the tenants will be put out of Mr. Pullmans houses as soon as the company can get rud of them. The excuse given for turning the strikers out is that the houses are needed by the new workmen who have taken the places of the strikers. There are now nearly 400 recent biouses of various kinds in Pullman as many perhaps as will be needed by the new normal perhaps as will be neede the Wilson bill, but between the Senate bill and the Melvinley la v.

At the conference of the conservatives and steering committee of Democrats saturday, the opinion was general that the Hill resolution would pass by a good majority if a vote is taken and it is behaved that a vote will be reached tomorrow afternoon.

The benate conferees said this afternoon if the Senate passed the resolution the conferees would certainly bring in a disagrate ing report the Senate would hold that it had the bill before it subject to action. As to what the action will be there is no contrariety of views, as Democrats and Republicans allike now admit if the bill gets before the Senate again it will be defeated. The Democrats who want to see some sort of a tand bill bassed by this Congress look to the House for political salvation and the situation now appears to be a race for time. The House, in caucus, will be argued to argud to Take Up the Senate Bill

Take Up the Senate Bill and accept it as it came to that body and thus end the struggle, some of the Democratic authorities on parliamentary law in both branches maintaining that this can be done legally, although the bill is now in conference, at least, its show of legality would be as good as that contemplated by the Senators in demanding a disagreeing report on the bill so that they may kill it. No business of any kind can be done in the Senate until this tangle is unravelled. Here appear to be votes enough to keep the matter before the Senate a certain number of hours each day. Point of Starvation
and so poor that they could not pay an
expressman for hauling their goods out
of town. The strikers steadily avoided
discussion of the possibilities of eviction,
but were warned that it would surely
come. They have been hoping the
trouble would be settled in some way that
would not drive them from town.

in both branches maintaining foul tills can be done legally, although the still is now in conference, at least, its show of legally would be as good as that core it figures the state of the demandance of the group of the state would not drive them from town 'God pity the officials of the company "God pity the officials of the company if they attempt to evet us," said Robert Coombs, a member of the striking committee "I don't like to think of what would happen I want to get away befor anything of that kind be gins."

I he situation at Pullman has kept get ting worse for the strikers, who still hold out.

Nearly 1,000 new men are employed from down town, and 100 additional or essure energed to report to morrow morn and Pin company will then have nearly 1760 nien or within 100 of the number it expects to work this winter. A large proportion of them are new comers.

Petition to Enjoin it from Doing Business
Curcial And Aug 11 Attorney General Maloney appeared in the county court this affernoon and fited a petition for a bill in equity against the Pullman Pelace Car Co. calling upon it to show cause why it should not be prohibited from doing business under the laws of the State libe petition such or the that it has violated, the frunchises conferred upon it by the State and lays struss upon the fact that it is conducting a hotel inveloces and a real estate business at Pullman without warrant of law. The petition is said to be consideration of business reported from them. The Committee on Rules feel in Clined, if the opportunity and time remain, to grant them the sume privileges the one of the strongest so far drawn by the autorney goneral in his crusade against trusts and corporations.

The Night Before the House Caucu The Night Before the House Caucus which will settle the fate of tariff legislation finds the Democratic leaders in that body, which has charge of the measure, calm in spirit and confident of a satisfactory conclusion of the knotty problem before them. The House conferces were not in session to-day Messrs Wilson and Breckinridge spent most of the afternoon talking over the situation They were joined later by several gentlemen.

The understanding to-night is that no opposition will be made at tomorrow's

several gentlemen.

The understanding to-night is that no opposition will be made at tomorrow's caugas of the proposition to concur in the benate amendments to the tariff bill I here have been some questions as to the President's avews regarding the caucas. It was thought in some quarters justerday that he might use his influence with the House leaders to prevent the bancus, and thus continue the contest between the two houses, but there is no good reason to believe that the President will attempt to interfere. One of the most distinguished Democrates in public life, a gentleman deeply interested in the House bill, saw the President this morning and explained to him at considerable length the situation as viewed from the House standpoint Incidental mention was made of to-morrow's caucus and the President had nothing to any with reference to it. He

ou the to do the to the cure of Constitution and Sick headaghe. For Males and Sick headaghe. For Males and Sick the headaghe. For Males and Sick the headaghe. For Males and Sick headaghe. Fo

him with the sunction of the House conferees

His approval might take the form of permitting it to become a law without its signature, but it is not believed he will veto it if it reaches him under the foregoing circumetances. The mimbers of the Senate 'steering' committee were not in session to-day. One predicted to-night that the House caucus to-prorrow would agree to becapt the Senate bill and all the Democrats in the Senate with the exception of two or three would facilitate the efforts to seeue the bill and puls it.

This gentleman believes the bill is in the possession of the House and leading House Democrats largere with him.

Is was openly stated to-night by certain Democratio Senators that if the bill be returned to the Senate

firmly convinced that nothing will occur to radh ally change the situation within the next few days. The House Demo crats will not swallow these 633 amend-

ments without taking a little while to examine them " CYCLONE STRIKES ILLINOIS.

Mr Jerrold and Alice Ren wick followed on horseback. The carriage wis surrounded as it halted near the rangs, and half a score of officers, old and young, were chatting with Mrs. Maynard, while others gathered about the lovely girl who sat there in the saddle. There came marching up from the railway a small squad of soldiers, competitions surrying from the far west. Among them—apparently their senior noncommissioned officer—was a tall cavalry sergeant, superbly built, and with a branzed and bearded and swarthy face that seemed to tell of years of campaing over mountain and prairie. They were all men of perfect physique, all in the neat, soldierly fatigue dress of the regular service, some wearing the spotless white stripes of the infantry, others the less artistic and equally destructible yellow of the cavalry.
